 These days, my concern is to minimize the stress
 Selfish only and do not need it all
 Whether a woman is packed with all the money would be my only
 Why priced divination
 It blossomed only disputes Gorman needlessly gomanhan
 If anyone one well-biting busy
 I ran farther to ask anyway tteutgil
 Some time ago my goal is to put up hundreds of billions of
 Walk the little finger on unconditional earn
 Cant beat the world ppeongka not here.What
 I'm just cool do you live
 I did not own dogs, such as floor hoarding all hadeoman
 Village seureowoseo so I was not alive
 Do not swallow the water to eat broadcasting stations ttongkkon
 Twenty-three bodies born yesterday know
 Seoul while I sat alone Ads Press
 Teenage years singing and felt Articles
 Nana neona just alike
 Lula today know only shipapa
 Everything is as it flows to the top five own-ichi

Pumba dance the dance Lula shipapa
All of the top five own-ichi, as flows are
My name is extensive blood half ganggael
Overnight caffeine jjideulda nalsae
Until I die jaldwae
Again like ants ate oysters in the state 300
I am not matter whether or not it is as necessary
But women are constantly and into my bed
Also I can not put up with wrong sibael just spit this romah
The fierce world
Begging and even though I do not like living scarecrows
It drops life might sound like madness
Chuge dont make me dance
I salahganeunga to do
I'm sick and sweating to do heulrineunga
I do not know those numerous questions sore head
I only just came into the world to play around a while
When Oops Time passing
Boom BOOM SHAKIT shake swekit
Do not ask questions without answers
It would somehow flow
Lula today know only shipapa
All of the top five own-ichi, as flows are
Pumba dance the dance Lula shipapa
All of the top five own-ichi, as flows are
Whether heaven or hell crazy live
Going to the theme of my life without regrets
They even sell it to understand it more deeply my wounds
I am carrying the biggest weight
I do not care whatever'll eventually laugh
Eopeuni order to leave everything to luck, I go to work every day
In the next room in the master bedroom studios passion Gonna year
My life is now suffering they made big waves
For better or worse, having survived the
Just laughing live without iron
Grinning like a shark gills swallowed the big mouth open
Time goes ahmuleo be wound
So according to that time is the time
1,2,3 dance again!
Lula today know only shipapa
All of the top five own-ichi, as flows are
Pumba dance the dance Lula shipapa
All of the top five own-ichi, as flows are
