

Not About Angels

Birdy

We know full well there's just time
So is it wrong to dance this line?
If your heart was full of love
Could you give it up?'Cause what about, what about angels?
They will come, they will go, make us special oh oh ohDon't give me up
Don't give,
Me upHow unfair, it's just our love
Found something real that's out of touch
But if you'd searched the whole wide world
Ho oh oh would you dare to let it go?'Cause what about, what about angels?
They will come, they will go, make us special oh oh ohDon't give me up
Don't give,
Me up'Cause what about, what about angels?
They will come, they will go, make us specialIt's not about not about angels, angels
