The Night Before Christmas

Toby Keith

Ribbons and paper cover the floor
It's been a good Christmas, presents galore
Everyone's happy, I'm happy, too
'Cause oh, what a night, oh, what a night
Night before Christmas I had with you
Frost on the window, snow on the ground
Holiday spirit, holiday sounds
Everyone's thankful, I'm thankful, too
'Cause oh, what a night, oh, what a night
Night before Christmas I had with you
It all started underneath that mistletoe
While we were waiting up to help ol' Santa Claus
We were making merry in ways we'd never thought of
Then we heard those sleigh bells ol' Santa almost caught us
No we didn't take pictures
But I'll always remember

One very special twenty-fourth day of December
'Cause oh, what a night oh, what a night
Night before Christmas I had with you
It all started underneath that mistletoe
While we were waiting up to help ol' Santa Claus
We were making merry in ways we'd never thought of
Then we heard those sleigh bells ol' Santa almost caught us
If we don't do it next year
Honey, I'm sure gonna miss it
Why don't we make it a new Yuletide tradition
'Cause oh, what a night, oh, what a night
Night before Christmas I had with you
'Cause oh, what a night, oh, what a night
Night before Christmas I had with you
