All My Love

Eric Cruz

All My Love Written by Eric Cruz

Intro:

I gave you everything
right from the very start

1st verse:

Standing here
All alone
and empty inside
You took my heart
and pushed it aside

Bridge:

All my love
All my love

All my love, all my love was all for you

Chorus:

I gave you everything
right from the very start
I gave you all my love
But you just broke my heart

I gave you everything right from the very start
I gave you all my love but you just went and broke my heart
But you just went and broke my heart

2nd verse:

Why can't you see
that I was true to you
Now you're looking at him

Like I looked at you

Bridge:

All my love
All my love

All my love, all my love was all for you

Chorus:

I gave you everything
right from the very start
I gave you all my love
But you just broke my heart

I gave you everything right from the very start
I gave you all my love but you just went and broke my heart
But you just went and broke my heart

Chorus:

I gave you everything
right from the very start
I gave you all my love
But you just broke my heart

I gave you everything right from the very start
I gave you all my love but you just went and broke my heart
But you just went and broke my heart
