

In Rounds

[Trey Anastasio](#)

Breakdown, moving in silence, in slow-motion
We're turning in rounds
The cold water fever, in a trance so beautiful
Pulse racing, revolving in roundsChorus
Skinny little legs, skinny little legs
Skinny little legs like marionettes
With heads removed, heads removed
She forgets, she forgets (2x)Dark eyes, dying in battle slip sideways
We're showered in rounds
A burnt match, a hum in the distance
In shadows, sleepwalking in roundsRepeat Chorus
