From the Start

What's Eating Gilbert

I remember that Summer I first saw her face
All my joints locked up, frozen in place
I remember our first talk, you came off so sweet
A voice like an angel where you said to me
For some people it takes time
The date to try to make up their mind
But I knew that I loved you from the start(From the start) Yeah, from the start
(Yeah, from the start) Cupid shot an arrow to my heart
For some people it takes time
But I couldn't wait to make you mine
'Cause I knew that I loved you from the startI remember laughing till the sun came up
We were quoting Wayne's World, I hope we never grow up
And I remember our first kiss, how it made me melt
Under the sign that you're God's gift, best it's ever felt
For some people it takes time
The date to try to make up their mind
But I knew that I loved you from the start(From the start) Yeah, from the start
(Yeah, from the start) Cupid shot an arrow to my heart
For some people it takes time
But I couldn't wait to make you mine
'Cause I knew that I loved you from the startFor some people it takes time
The date to try to make up their mind
But I knew that I loved you from the start(From the start) Yeah, from the start
(Yeah, from the start) Cupid shot an arrow to my heart
Yeah, from the start (From the start)
Yeah, from the start (Yeah, from the start)
Cupid shot an arrow to my heart
For some people it takes time
But I couldn't wait to make you mine
'Cause I knew that I loved you from the start
