

Dr. Wanna Do

Caro Emerald

I just made an appointment for a special rendezvous
To see a man of miracles and all that he can do
I checked in at reception, put my hat onto my lap
And when he walked in dressed in white I had a heart attack
My eyes went ooh, my voice just cooed
My mind let loose
I'll stay forever, it's up to you
(Dabedebedibedabedudohdoh) Doctor, I want you
Mmm, my doctor wanna do
I can't get over you
Dr. do anything that ya wanna do Doctor, I want you
Mmm, my doctor wanna do
I can't get over you
Dr. do anything that ya wanna do I sat down and I waited 'til I heard my name get called
It's like I'm at the races and I think I won them all
He asked me to step forward, first I caught my breath and ran
For endless observation in the hands of Superman
My eyes went, ooh, my voice just cooed
My mind let loose
I'll stay forever, it's up to you
(Dabedebedibedabedudohdoh) Doctor, I want you
Mmm, my doctor wanna do
I can't get over you
Dr. do anything that ya wanna do Doctor, I want you
Mmm, my doctor wanna do
I can't get over you
Dr. do anything that ya wanna do Come over here and give me some medicine
Move a little closer so my head can spin
A little bit of potion makes my fever go
Get it out of me, me like a volcano
My eyes went ooh
(Uhuh uhuh)
My voice just cooed
(You know it)
My mind let loose
Mmm, Dr. Love
(Dabedebedibedabedudohdoh) Doctor, I want you
Mmm, my doctor wanna do
I can't get over you
Dr. do anything that ya wanna do Doctor, I want you
Mmm, my doctor wanna do
I can't get over you

Dr. do anything that ya wanna do
