

Feral Love

[Chelsea Wolfe](#)

Arm your guards, unbreak your horses
Ours is feral love
Call your dogs and special forces
All will come undone I bet you don't go crazy like you used to
But I bet you don't go crazy like you used to
I bet you don't go crazy like you used to
When you used to get down with me Flee the scene, we scream cease fire
Look at what you've done
And all your men and all your horses
Scream enough's enough I bet you don't go crazy like you used to
But I bet you don't go crazy like you used to
I bet you don't go crazy like you used to
When you used to throw down with me My love what have you done (x7)
