Forces of Rage

Iron Savior

Under the ice
We hide from your stare
Buried in grief and despair
We're the debris,
The scattered remains
Leaves in the storm
Who is lashing the worldDestiny calls
Extinction of man
Will it all happen again
But yet we're alive
Unbroken we stand
Banish the conqueror
Who's taken the landWe'll be a thorn in your unhuman flesh
There'll be a time for retortion
We'll break the fetters, we'll never give in
Although it seems our end will beginForces united, forces arise
Legions of iron descent from the skies
Dark knight, you'll never defeat
The immortal spirit of freedom
Savior, watch out beware
We will engage
The Forces Of RageStarbirds are gliding
On winds of decay
Merciless hunting the pray
Infernal machine
The hatchet of war
Sharp as a razor
Will cut back the clawWe'll be the virus, a deadly disease
The fever is burning inside you
To bring you to fail is the ultimate aim
We'll rise from the ashes again and againForces united, forces arise
Legions of iron descent from the skies
Dark knight, you'll never defeat
The immortal spirit of freedom
Savior, watch out beware
We will engageFree, at least for a moment in time
Years, how many years have gone by
In fury and wharf we're looking above
Forging the sword, the blade of reprisal

Leaders of man let's ride out again
From fire and ice a blazing star will arise!We'll be a thornForces united, forces arise
Legions of iron descent from the skies
Dark knight, you'll never defeat
The immortal spirit of freedom
Savior, watch out beware
We will engage
The Forces Of Rage
