

# Weather Girl

## D.R. HOOKER

She's a rainbow on a rainy day  
She's a sunshine that moves my clouds away  
Everything changes when she's here  
Can't see my troubles when she's hereWhen my skies are all stormy  
And I feel cold  
She smiles and the temperature  
Is controlled  
She changes my sky from blue to gold  
Don't need a barometer  
My weather girl  
She's a weather girl  
Weather girl  
Weather girlI'm trying to say what she does to me  
I'm painting a picture  
Can't you see?  
And a tornado  
wracks my brain  
She changes the forecast  
And stops the rain  
It may sound impossible  
To do  
Emotionally speaking  
It's trueShe's a weather girl  
Woah  
She's a weather girl
