Yap Yap

Keith Richards

Well, I hear you talking and I see me walking
Let me make clear, I'm outta here, oh yeah
You know it makes no sense to me
No way, you gonna get no fence around me, yap yapYou known you talk too much, mmm yeah
Yap yap, you talk too much
Even in my sleep I hear you babe
But it makes me weep when I'm awakeWhen I hear the whispers, babe
The echoes coming round the bluff
I get all my secrets back
It's quite a shock, mmm yeahYap yap, you know you're talking too much, mmm
It's driving me, driving me
So what's the message
Why don't you talk to me
