

# Amy

## We Shot The Moon

Amy would you be there for me  
If I told you all my secrets  
Would you care or be scared  
And Amy would you believe in me  
All the complications that I bring  
The complication of you and me  
Break the spell cast on me  
That I fell through  
Smile for me  
It's your smile that I run to  
The hardest thing to admit  
That I love you  
Sweet Amy don't let fear  
Take me from you  
We'll find a way  
Amy please don't cry yourself to sleep  
Remember when I kissed you  
By the stairwell where we hid  
And Amy please just laugh for me

All the distance in between us  
Don't let distance now defeat us  
I can hardly wait, I can hardly wait  
The futures right here  
Making no mistake, making no mistake  
I can't let go  
Break the spell cast on me  
That I fell through  
Smile for me  
It's your smile that I run to  
The hardest thing to admit  
That I love you  
Sweet Amy don't let fear  
Take me from you  
We'll find a way  
Need you to break the spell  
Please will you break the spell?  
Won't you break the spell?  
God will you break the spell
