

# Somebody Cares

Maoli

Nobody knows the side of you  
I see everyday  
And now, I know it's true  
I see it when I'm with you  
And no one else  
There's somethin 'bout the I feel I just can't help  
Come with me and you will find  
There's someone thinkin 'bout you day and night

(Chorus)

Somebody cares about you and wants to  
Always be there for you and love you  
Somebody cares about you and wants to  
Always be there for you and love you

Nobody knows the side of you  
I see everyday  
And now, I know it's true  
I see it when I'm with you  
And no one else  
There's somethin 'bout the I feel I just can't help  
Come with me and you will find  
There's always someone thinkin 'bout you day and night

And you, I love the way you make me feel  
The feeling is so unreal  
And now I wanna let you know

(Chorus)

Somebody cares about you and wants to (Someone cares about you)  
Always be there for you and love you (Always be there)  
Somebody cares about you and wants to (Someone cares about you)  
Always be there for you and love you (Always be there for you)

## Instrumental

(Chorus)

Somebody cares about you and wants to (Someone cares about you)

Always be there for you and love you (Always be there)

Somebody cares about you and wants to (Someone cares about you)

Always be there for you and love you (Always be there for you)
