All Night Long

Lasgo

Baby, lay it on the line

If I am on your mind

Baby, do you like romance

If you care for me, you better take this chanceBaby, I played my last card

So please don't break my heart

Baby, time is running out

If you want me too, then you just give a shoutI wanna make love with you

All night, all night long I wanna make love with you

All night longBaby, I am on my knees

Be mine, I'm begging you please

Baby, it's decision time

Got to know right now, there's nowhere you can hideI wanna make love with you All night

I wanna make love with you
All nightI wanna make love with you
All night, all night long
I wanna make love with you
All night long
