

# Set Me Free

## Pennywise

Life is a lesson you can only learn for free and time keeps on slippin'  
like a faded memory

And I got the answers starin' right in front of me, time heals my soul  
Set me free, set me free, set me free, set me free

I stand about, face my mission, you don't know what you've been missin' There is a reason for all that comes to  
be

My troubled life riddled with dark insanities

I need solutions through the pain that surrounds me, time heals my soul Set me free, set me free, set me free, set  
me free

I stand about, face my mission, you don't know what you've been missin' Life is a lesson you can only learn for  
free and time keeps on slippin'  
like a faded memory

And I got the answers starin' right in front of me, time heals my soul Set me free, set me free, set me free, set me  
free
