

# Never Ever Gone

Chris Cagle

Yeah, one of these days I'm gonna write you off  
Have this tattoo removed once and for all  
Wake up smiling in another life  
Without you taking up all the space in my mind  
Yeah, that's just a dream I'm living in  
I walked out the door and then  
Can't even watch a sunset  
Listen to a song  
Just when I think I got you nicked  
Wrong  
No matter how hard I try to turn it off  
You keep going on and on  
You're never ever gone  
You're never ever gone  
Then I think I can fool myself for a while  
I try to call up a friend but when I start to dial  
There's your number tickling my finger tips  
I say your name, I didn't mean to, it just kinda slipped  
I laugh it off like I don't care  
But who am I kidding I swear  
Can't even watch a sunset  
Listen to a song  
Just when I think I got you nicked  
Wrong  
No matter how hard I try to turn it off  
You keep going on and on  
You're never ever gone  
Oh girl, you're never ever gone  
Can't even watch a sunset  
Listen to a song  
Just when I think I got you nicked  
Wrong, wrong  
No matter how hard I try to turn it off  
You keep going on and on  
You're never ever  
Are you ever gonna leave me alone?  
You're never ever gone  
No, you're never ever gone  
Never ever gone

Never ever gone
