

This Island Needs Jesus

Carlene Davis

People dancing in the street to a groovy reggae beat

Yet everything in life is bitter sweet

Sitting in a rum bar won't get you very far

You think life's a big house and a fancy car

But your heart can be lonely

Though you have life and plenty

Moving with everyone to the cemetery

You need Jesus in the plan to direct this island

It's not all about sea shore and sand

You got to treat the children right

Let them have an insight

It all about the blood of Jesus Christ

So hear me now my brother

You need to know the Saviour

To make everything alright

Chorus:
This island needs Jesus

This island needs Jesus

He's the mighty King of Kings

He's the conquering Lord of Lord's

This island needs Jesus

This island needs Jesus

Come along and sing the praises to our king
Members of Parliament and Heads Government

To get it right won't cost you scent

Salvation is free, it's here for you and me

Jesus paid the blood at Calvary

Sing praises unto him

Let's glorify the king

Magnify and Bless his holy name

Teach Jesus in the school let them know this is cool

Let His word be established don't be a fool.

You got to treat the children right

Let them have an insight

It all about the blood of Jesus Christ

So hear me now my brother

You need to know the Saviour

To make everything alright
