

She Rides Away

David Nail

Sunset on the chapel,
When I close my eyes, I see her and she's prayin'
Ripples in the holy water,
Kneelin' in the light that is fadin'
Asking for forgiveness
'Cause she knows that it is me that she is breakin'
Angel flyin' with my heart She rides on the edge of no tomorrow in a rusty El Camino
She flies as wild as the wind on the border of Laredo
She rides away
Questions in the dark
She rides away
Angel's flyin' with my heart Mystery surrounds her,
She's the moonlight and the daylight, ain't no answer
Blacktop on the sand
While the desert just goes on and on forever
She told me when I met her
She would leave like it was written in red letters
Angel flyin' with my heart She rides on the edge of no tomorrow in a rusty El Camino
She flies as wild as the wind on the border of Laredo
She rides away
Questions in the dark
She rides away
Angel flyin' with my heart Sunset on the chapel,
When I close my eyes, I see her and she's prayin'
Asking for forgiveness
'Cause she knows that it is me that she is breakin' She rides on the edge of no tomorrow in a rusty El Camino
She flies as wild as the wind on the border of Laredo
She rides away
Questions in the dark
She rides away
Angel flyin' with my heart
Angel flyin' with my heart
