Straw Dogs

Manimal

All things are relative with cousins everywhere
Hard-nosed, blue-eyed boys, intelligent and fair
You gotta pitch in for your kith and kin
Holding the line to save our skinPound for pound, we'll take the shilling
It takes a man to make a killing
Action men must sterling be
Fight for freedom but not for freeBark and bite, might is right
We're the dogs of war
Bark and bite, might is right
If the price is right, dogs of strawSo let's go far to the new frontier
It's in the blood defending near and dear
Action men must sterling be
Fight for freedom but not for freeBark and bite, might is right
We're the dogs of war
Bark and bite, might is right
If the price is right, dogs of strawA man must do what he must do
To prove what life is all about
Admit you must admire our guts
If only 'cause they're hanging outBark and bite, might is right
We're the dogs of war
Bark and bite, might is right
If the price is right, dogs of strawDogs of straw, bark and bite
Dogs of straw, might is right
Dogs of straw, stab and hate
Dogs of straw, split and rapeDogs of straw, gouge and blind
Dogs of straw, crunch and grind
Dogs of straw, mash and maim
Dogs of straw, cash and fameDogs of straw, cut and kill
Dogs of straw, guts for sale
