

It's Time

Madball

Advisory - the following lyrics contain explicit language:

Time has come for all to hear
Madball's back, just beware
Time has come, set it all straight
Speaking the truth 'cause I got a lot of hate To all who got beef, ready to fight
The battle's begun to show you who's right
Takin' over and we're letting you know
DMS is runnin' the show It's time, time to set the record straight
Speaking the truth 'cause I got a lot of hate
In my mind you can't see what's going on
Taking over, now you're time has come Time has come, I'm on the attack
Ball of destruction is bringin' it back
Hardcore lives, lives through me
Time has come for all to see To all who got beef, ready to fight
The battle's begun to show you who's right
Takin' over and we're letting you know
DMS is runnin' the show It's time, time to set the record straight
Speaking the truth 'cause I got a lot of hate
In my mind you can't see what's going on
Taking over, now you're time has come
Fuck you
