Buried Alive

Death Angel

One murder coming on Say I'm wrong for all I've done Are you God to judge us all?

Prophet false with a jury hungHome, an empty shell of a living hell

A human zoo full of cannibals

Backwards life, it's a dirty world

Where your dreams can't be heardA shallow grave is where I dwell

Buried alive within this cell

A shadow cast upon my fate

Deliver me to the one who waitsGuilt, regret and innocence

Full of lies and corruption

Suffocate while the worms infest

Underground, take one last breathHome, an empty shell of a living hell

A human zoo full of cannibals

Backwards life, it's a dirty world

Where your dreams can't be heardA shallow grave is where I dwell

Buried alive within this cell

A shadow cast upon my fate

Deliver me to the one who waits Visions of life start to flash

As the dirt rains down

How does your so called God

Get off on this?Blackness descending on me

In this hole in the ground

No longer will I see the light of day

The saints are gonna make the sinner pay

And maggots are waiting to feast on my flesh
