Riding The Eagle

Primal Fear

Countless miles he carried me
Crossed mountains and the seas
Rolling on I got a mission to completeMetal fighter shining brighterFlying high as we cross the sky
High on those wings
Riding the eagle
High as we cross the sky
Taking the world we'll flyWe travelled through the universe
Supersonic without fear
They tell a tale of an eagle flyin' freeMetal fighter shining brighterFlying high as we cross the sky
High on those wings
Riding the eagle
High as we cross the sky
Taking the world we'll fly[solo]Flying high as we cross the sky
High on those wings
Riding the eagle
High as we cross the sky
Taking the world we'll fly
High on those wings
Riding the eagle
