

Kid Next Door

The Bottle Rockets

The kid next door
The kid next door
Now he ain't coming home no more I watched him grow
I watched he go
Now he ain't coming home no more He was a high school football star
And that boy really loved his car
I still can hear that loud hip hop
As was coming down the block Remember there in my garage
In his desert camouflage
He told me not to worry none
He'd be back when his work was done The kid next door
The kid next door
Now he ain't coming home no more I watched him grow
I watched he go
Now he ain't coming home no more
