

# Can't Slow Down

## Union Carbide Productions

Like to make you happy  
I like to make you sad  
But I'm something  
That will drive you mad  
Cause I can't slow down I'm evolution  
I am your pain  
I'm no revolution  
But I'm inside your brain  
And I can't slow down  
I just can't slow down Somebody's gonna lose his way to talk  
And somebody's gonna choose his way to walk I'm your mother  
And I don't care  
I am your consciousness  
And I've got no time to spare  
Cause I can't slow down  
No I can't slow down  
I can't slow down  
I can't slow down
