

Goodbye Forever

My Brightest Diamond

Oh, to love
By fire, by flame
This old feeling
Insignificance
InsignificanceThen I can hear you
Brighter than the stars
Your voice is a razor bladeI can see you shining through the sun
You're so mysteriousLose the hold
As I throw this
With a goodbye forever
Fear of exposure
Fear of exposureThen I can hear you
Brighter than the stars
Your touch is lighteningI can feel you
Prickling like a thousand shark teeth
Prickling like a thousand shark teeth
Closer to meCome closer to me
Come closer to me
Come closer to me
Still
