

# She Loves You No Less

## My Bloody Valentine

(hands play) shadows and the years unfold  
Not your lover's (coat)  
Seeing the girls for the first time (out in this cold)  
Send me a promise wouldn't it be nice  
All alone (not with a) girl  
Holding me now for the first time is never enough  
Sweet black sugar on a licked up sky  
I'm gonna go out of my mind  
Found this love for you alone  
Close my eyes and letting it go  
Oh yeah, oh yeah

She loves you no less but you do really care  
Hands play down to take a look at your face  
There's a daisy in her hair  
(treachery) is good it's the price to pay and stare  
Sweet black sugar on a licked up sky  
I'm gonna go out of my mind  
Look around for a midnight feel  
When I see you then I won't sleep  
Oh yeah, oh yeah  
She loves you no less but you do really care
