Together Makes It Better

L.P.D.Z.

Penny: When I give you the 411, It's cause you know how is done. I'm playing alone, and I'm feeling y'all, or am I the only one. We're here to celebrate, so don't act like you wanna hate. All you players are showpiece, you and your phonies, hurry for it's too late. Oh all the girls are strong enough to step it low. But everybody wants, to find the perfect tone, uhoh!
(Penny: You standin' right beside me, your hands and mine but we'll both see,we can decide what we'll be, cause together makes it better y'all! We're scared to meet each other, our sistas and our brothas! Have faith in one another, cause together makes it better)
Penny: Blowing it up tonight, ah everyone's feeling tight. This party is banging and no one's complainin', even my legs feel right. Going again tonight but down that ol' dead road, the love is right here with you, no one's there at home oh woah oh oo!
