The Fight

Shiloh

They tell me I'm too young - some say I'm just a fool
Frustrations building up - cuz I know what I can do
And all the choices that I make everyday
Change the world around me
And I feel just like forever starts todayI'm gonna give everything that I've got - gonna make it whatever
I'm gonna live like never before - and do what I want
Gonna fall but I won't fall apart - gonna keep it together
The more I fight, the stronger I become - the fight has just begunThey say that I should dream - then they tell me what to do
And I'm stuck here in between - two vesions of the truth
And all the choices that I make everyday
Change the world around me
And it feels just like forever starts todayI'm gonna give everything that I've got - gonna make it whatever
I'm gonna live like never before - and do what I want
Gonna fall but I won't fall apart - gonna keep it together
The more I fight, the stronger I become - the fight has just begunSometimes I wanna run away
From the things that I don't wanna face in front of me
I'll stand my ground - I'm not going down - I'm not gonna breakI'm gonna give everything that I've got - gonna make it whatever
I'm gonna live like never before - and do what I want
Gonna fall but I won't fall apart - gonna keep it together
The more I fight, the stronger I become
And I'm gonna have my moment in the sun
The fight has just begun
