Advisory - the following lyrics contain explicit language:

So I got this feeling
You and I need a moment
I want you to love me babe
Make me know it
I need you to want me babe
Come and show it Let me satisfy you tonight
Go inside sit on my couch, oh
I know what you like just sit back
Let me ride, hear it all out, uh
I want you right now
Not another minute later, so come on
Put your money where your mouth is
Give you what you paid for, come on
I know it's real how my body feels on yours, oh
And I want to spend some time
No answer sign on the door
Oh no, please don't disturb me, no
Don't, disturb no So I got this feeling
That you and I need this moment
I want you to touch me baby
Let me feel it
I need you to hold me baby
And you in it Let me satisfy you tonight
Go inside sit on my couch, oh
I know what you like just sit back
Let me cry, hear it all out, uh
Baby I want you right now
Not another minute later, so come on
Put your money where your mouth is
Give you what you paid for, come on
I know it's real how my body feels on yours, oh
And I want to spend some time

No answer sign on the door
Oh no, please don't disturb me, no
Don't, disturb noLike a copper I'm coppin' a feel
Little mama got ass and she walk in them heels
She love when I eat it, she making a meal
Baby girl screaming
I give her the pillow so no one can hearOh
He biting my neck and my legs in the air
Tell me you love me then pull on my hair
I like it rough, don't be gentle my nigga
It ain't rocket science it's simple my niggaOh no, please don't disturb me, no
Don't, disturb noPlease no, please baby
