Dark Highway

Rotten Sound

[Music: Mika, Rotten Sound]
[Lyrics: Keijo]Sounds from outside
Wandering from the concrete walls
Roaming until they're all dead
And I am still awakeSeems so quiet
Feels so unsilentBouncing around
Roaming unbound
Machinery a'la urban dream
The juice of materialitySeems so quiet
Feels yet so unsilentElectricity is spent
Lifeless, but able to breed
Enabling the surge
The endless, bottomless drain
The smell of gas in the air
Feeding the polluting needsOne can's scream when being surrounded by darkness
While being kept in the depthsMachinery a'la urban dream
The juice of materialityOne can's scream when being surrounded by darkness
While being kept in the depthsSounds from outside
Wandering from the concrete walls
Roaming until they're all dead
And I am still awakeSeems so quiet
Feels so unsilent
