# By My Side

## The Muffs

I fall around you and reckon too I really wanna see ya
Following every move you make and now I'm coming nearerHide away from me I don't know how
You run from me and I will not allow it you'll be by my side
With no one else around
No one's aroundYou turn around I'm around you're afraid
And I just wanna meet ya
Run away far away I am hurt and now I wanna beat yaClose your eyes so you will understand
I am the one and now I have a plan to get you by my side
With no one else around
No one's aroundI complete you, but you don't know it yet
I just wanna keep you like you're my little pet[solo]Close my eyes when you don't understand
Don't follow me you say I have a plan to get you by my side
With no one else around
No ones around
No ones around
