Sophia

The Rasmus

Yeah, I just wanna do you right
Show you all this love and mommy treat you right
Take me from the darkness into the light
I read you like a book Sophia treat me right
Yeah, I was in the desert
I was walking with the dead
I was lost and I found Sophia
On the Internet
Now it's on 'cause I'm tired of living
With the one percent
Now it's on cause I'm ready for that
Ninety nine percent
Come on
I just want to show you love
(Sophia)
Show you love, show you love
I just want to do you right
(Sophia)
Do you right, do you right
I just want to show you love
(Sophia)
Show you love, show you love
I just want to do you right, do you right, do you
Understand, understand
Yeah, you where always there for me
Even when, when they lied about my history
There we met Sophia in the University
High society says that she's too good for me
Listen, you can't keep us apart
Sophia stole my heart
What give you the right to keep us
All up in the dark Devil
She's not your girl, she's mine
Geometric so sublime
She's not your girl she's mine
Geometric so sublime
Show you all this love and mommy treat you right
Take me from the darkness into the light
I read you like a book Sophia treat me right

Yeah, I was in the desert
I was walking with the dead
I was lost and I found Sophia
On the Internet
Now it's on 'cause I'm tired of living
With the one percent
Now it's on cause I'm ready for that
Ninety nine percent
Come on
I just want to show you love
(Sophia)
Show you love, show you love
I just want to do you right
(Sophia)
Do you right, do you right
I just want to show you love
(Sophia)
Show you love, show you love
I just want to do you right, do you right, do you.
Understand
Come on baby take a walk with me
Down the cold dark center of the mystery
I'll break the code if you turn the key
Come on baby take a walk with me
Come on baby take a walk with me
Come on baby take a walk with me
Come on, come on, come on
Come on, come on, come on
Yeah, yeah, yeah
Ha, ha, ha, yeah, yeah, woo, ooh
Yeah, I just wanna do you right
Show you all this love and mommy treat you right
Take me from the darkness into the light
I read you like a book Sophia treat me right
Sophia take my hand
Without you, I'm half a man
I was blind now I can see
Look Sophia what you done to me
Look Sophia what you given me
I was in bondage now I'm free
Look Sophia what you done to me
I was in bondage, now I'm free
Yeah, I just want to show you love
(Sophia)
Show you love, show you love

I just want to do you right
(Sophia)
Do you right, do you right
I just want to show you love
(Sophia)
Show you love, show you love
I just want to do you right
Do you right, do you right
Come on, come on, come on
Yeah, yeah, yeah
I need it, I want it, can't live without it, no
Yeah, yeah, yeah, yeah, yeah
Yeah, yeah, yeah, yeah
