Go Figure

Everlife

Just when you learned the game of life
All the rules change overnight
Whoa-o-oh, go figureIt seems so wrong to even try
But taking a chance never felt so right
Whoa-o-oh go figureYou have a dream you wanna be
The center of the story
Just when you think it's going
You find a way to keep it going onSometimes you fall before you fly
Sometimes you laugh when you should cry
Go figure when things got messed upYou wanted to give up
Nothing seemed right but it turned out fine
Go figure, go figure whoa, whoaIt's so dangerous to play it safe
You get what you want by giving it away
Whoa-o-oh go figure, go figureYou're trying so hard to be someone else
When all you needed to be was yourself
Whoa, whoa go figure yeah, yeah, yeahNot everything is what it seems
It's never just one meaning
When life starts making sense
The world is upside down againSometimes you fall before you fly
Sometimes you laugh when you should cry
Go figure, go figure when things got messed upYou wanted to give up
Nothing seemed right but it turned out fine
Go figure, go figure, whoa, whoa, go figure
Whoa, whoaDid you really think your destiny was a one way street?
You gotta be ready for anything
Just set your whole life free, yeahSometimes you fall before you fly
Sometimes you laugh when you should cry
Go figure, go figure when things got messed upYou wanted to give up
Nothing seemed right but it turned out fine
Go figure, go figureSometimes you fall before you fly
Sometimes you laugh when you should cry
Go figure when things got messed upYou wanted to give up
Nothing seemed right but it turned out fine yeah, yeah
Go figure, go figure, whoa, whoa go figure
Whoa, whoa, go figure
