

Step on Up

Boyz II Men

Been workin' hard everyday
9 to 5
I need a place to get away
Where I can feel alive
Seems like my drama, it won't ever cease
I had to stay away
Now it's time to find my inner peace
I'm comin' out to play
This will be my night
I will get up on this floor
And lose what's left of my mind
Let the rhythm take control
Step on up, let your body go
'Cause I know you wanna do it so
When you hear the groove, you better know
That it's time to make your move
Just step on up now
This party's got me feelin' right, yeah
I found a place to unwind, oh, yeah
I'm thinkin' 'bout myself tonight
Relax and ease your mind
Ain't holdin' back, I'm gonna let it go, yeah, yeah
Throw all my cares away, yeah, yeah
Now, I'll be sure to let my feelings flow
I'm comin' out to play
This will be my night, yeah
I'm ma get up on this floor
And lose the best of my mind
Let the rhythm take control
Step on up, let your body go
'Cause I know you wanna do it so
When you hear the groove you better know
That it's time to make your move
Just step on up now
Let your body go
'Cause I know you wanna do it so
When you hear the groove you better know
That it's time to make your move
Just step on up now
And you won't turn away
Gotta get on the floor
Let's go, before it's too late
Keep it movin' all night long
Step on up, let your body go
'Cause I know you wanna do it so
When you hear the groove you better know
That it's time to make your move
Just step on up now
Step on up, let your body go
'Cause I know you wanna do it so

When you hear the groove you better know
That it's time to make your move
Just step on up now Step on up, let your body go
'Cause I know you wanna do it so
When you hear the groove you better know
That it's time to make your move
Just step on up now
