

For To Make a Lead Weight Float

Husky

In keeping with the future we wrote
And for to make a lead weight float I will try not to give up
But I won't succeed
I will try not to give in
But I won't succeed In keeping with the Universe
With invention of love comes it's curse I will try not to lie
But I won't succeed
I will try not to slip down that old landslide
But I won't succeed
No I won't succeed
In the slip up hours of your loneliest night
Heaven doesn't seem so holy
In the whitewash thoughts
That break through your mind
You can just drown in the story
In the slip up hours of your loneliest night
Heaven doesn't seem so holy
In the whitewash thoughts
That break through your mind
You can just drown in the story
