

# 365

## Hanhae

I've got a head rush, hush, you're heaven's dial, a crush  
I prayed for you forever and he sent you last November, finally  
    You better hold tight flight two shadows, one at night  
Each instant lasting so long the spirit in this very song, reminding me Life has taught me lessons like don't dare  
    to question fate  
    For God will do the gifting all we've got to do is wait  
    So if anybody asks you if your love is alive  
    Tell them all to count up to three hundred and sixty-five 365, 365 days a year  
        Three hundred and sixty-five  
        That's how much I love you dear  
    365 I got a love Jones in my bones, I hear a saxophone  
        A melody so haunting it leaves my heart never wanting  
        More than you, you really fit the bill the first day of April  
        Now I know that deep inside my heart  
You're gonna play the biggest part in my love debut  
    For with you comes the passion like springtime I fathom  
        grand  
    I cherish every blessing I get when you kiss and hold my hand  
        So if anybody asks if your love is alive  
    Tell them all to count up to three hundred and sixty-five 365, 365 days a year  
        Three hundred and sixty-five  
        That's how much I love you dear  
    365 Do you remember last November, baby  
That's when I met you, heaven sent you baby, ah  
    Sometimes I stop and throw my hands up in the air  
        You make me holler, hey Tee Tee won't go away  
        It's more than just a feeling, it's destiny  
I'm gonna testify about the long you're giving to me  
    I'm gonna break it down for you, gonna break down  
        Break it down, break it on down, I love you  
        Anybody asks if your love is alive  
    Tell them all to count up to three hundred and sixty-five 365, 365 days a year  
        That's how much I love you baby  
        Three hundred and sixty-five  
        That's how much I love you 365, 365 days a year  
        That's how much I love you baby  
        Three hundred and sixty-five  
        That's how much I love you 365, 365 days a year  
        That's how much I love you baby
