You

S Club 7

You are all I need to get me through
(Get me through now baby)
Like a falling star I fell for you
(I fell for you)Sweet anticipation
It's giving me the butterflies
And my heartbeat's racing
'Cause loving you is beautiful
When you're so irresistibleSo don't stop
(Don't stop)
What you're doing baby
So good
(So good)
And it drives me crazy, one touch
I'm in heaven, yeah 'cause loving you is so beautiful baby 'causeYou are all I need to get me through
(To get me through now)
Like a falling star I fell for you
(I fell for you now)
You have taught me how to love
An angel sent from high above
Now I know that all I need is you'Cause I need you and you need me
And we'll always be togetherI thought I knew what love was
I always ended up in tears
It's just the way my world was
Until you walked into my life
It's something that I just can't hideReal love
(Real love)
Has come my way
And I know
(I know)
That it's here to stay
And it feels like never before
'Cause loving you is so beautiful baby 'causeYou are all I need to get me through
(To get me through now)
Like a falling star I fell for you
(I fell for you now)
You have taught me how to love
An angel sent from high above
Now I know that all I need is you'Cause I need you and you need me
And we'll always be together

'Cause I need you and you need me
And we'll always be togetherYou're my inspiration
My world just seems a brighter place
I just wanna tell you
I've never ever felt this way
I've never thought I'd see the dayReal love
(Real love)
Has come my way
And I know
(I know)
That it's here to stay
And it feels like never before
'Cause loving you is so beautiful baby 'causeYou are all I need to get me through
(To get me through now)
Like a falling star I fell for you
(I fell for you now)
You have taught me how to love
An angel sent from high above
Now I know that all I need isYou are all I need to get me through
(Get me through now baby)
Like a falling star I fell for you
(I fell for you)
You have taught me how to love
An angel sent from high above
Now I know that all I need is you
