

It Ain't Mines

Juvenile

Now I don't know why you be actin' all shady
I only want to hit, not make you my old lady
So don't be tellin' me nothin' about no babies
You tryin' to give me a charge you must be crazy
Now I don't know why you be actin' all shady
I only want to hit, not make you my old lady
So don't be tellin' me nothin' about no babies
You tryin' to give me a charge you must be crazy
I don't know why you makin' people think I got you swoll
You better quit it before one of my bitches pop you, ho
I know your baby Daddy he ain't got no flow
You may be into playing games but it's gone stop here though
You want more than a fuck, you just trying to tie a nigga up
Like my last bitch, I blew a lot of money on her
I met her fast pace, lil' Mama hard for me to slow down
Why the sad face after the results come around?
You want a nigga to play Daddy?
Should've asked me
I would have gladly told you that I have me
When you met me you told me you wanted a gangsta to hit
Without the wisdom of knowing I'm off the chain with this shit
Now your feelings done got involved and you ain't glad with a fuck
And you wonder why all the players keep on passing you up
Look Juve ain't going through that ol' Billie Jean shit
I ain't gone let you put your babies on me, I mean this
Now I don't know why you be actin' all shady
I only want to hit, not make you my old lady
So don't be tellin' me nothin' about no babies
You tryin' to give me a charge you must be crazy
Now I don't know why you be actin' all shady
I only want to hit, not make you my old lady
So don't be tellin' me nothin' about no babies
You tryin' to give me a charge you must be crazy
You got a fat ass, your chest right, and you dress right
But would I fuck without a rubber?
You're thinking I just might
Tryin' to get a easy pay off, you're fighting for a wildcard bitch
But I'm in the playoff, you be scheming all day, ho take a day off
Find another target, this one you need to stay off

Your looking for a reputation
I'm a give you one
Don't be trying to give me a charge, nothing nigga done
As far as I'm concerned that baby could be for anyone
Not 'til you entered the party there wasn't any fun
It ain't me, it's the attention I draw
To make these bitches fill out paper work and lie to the law
It's obvious she want to ride in the driver's seat in my car

Takin' the lotteries to get some properties from a star
Look Juve ain't going for that ol' Billie Jean shit
I ain't gone let you put your babies on me, I mean this
Now I don't know why you be actin' all shady
I only want to hit, not make you my old lady
So don't be tellin' me nothin' about no babies
You tryin' to give me a charge you must be crazy
Now I don't know why you be actin' all shady
I only want to hit, not make you my old lady
So don't be tellin' me nothin' about no babies
You tryin' to give me a charge, you must be crazy
They be like, "Look at his lips, look at her eyes and her ears"
Mama said, "If I don't approve it, the baby not his"
She said she not gone keep all that, not proud of baby with kids
Keep playin', Mama says she donna three eighty ya did
I saw the grin on your face the moment I saw you in court
Wish I would have saw your face after the test was exposed
This ain't your first time you done did it before
Your not even gonna have a vagina no more
You're making accusations you ain't sure 'bout
You had a chance to be a Queen but still you chose to whore out
Don't even speak you ain't no friend 'cause you an enemy now
Niggaz knowing you ain't the ho that you pretend to be now
You done caught a maybe, baby
Move you're whoring and drama
You needs to try to focus on your daughter, lil' Mama
Look 'cause Juve ain't going for that ol' Billie Jean shit
I ain't gone let you put your babies on me, I mean this
Now I don't know why you be actin' all shady
I only want to hit, not make you my old lady
So don't be tellin' me nothin' about no babies
You tryin' to give me a charge you must be crazy
(These ho)
They be respectin'
(These ho)
They be respectin'

(These ho)
They be respectin' my G
(My G)
(These ho)
They be respectin'
(These ho)
They be respectin'
(These ho)
They be respectin' my G
(My G)
