

# Teach Me How to Love

[Sarah P](#)

will you take me there  
where the beauty never ends

How could I ever know there's so much love out there  
when all I have been told is that I should be scared  
How could I ever know that's beautiful to share  
when everyone wanders around in despair

Will you teach me how to love again ?  
oh ooohh oh

Take me by the hand  
teach me how to love again  
The world can be our wonderland  
We don't settle for less than much  
Our dreams come first - we make them last

Last night I saw  
It was true love's color washing us all - keeping us strong

How could I ever know there's so much love out there  
when all I have been told is that I should be scared  
How could I ever know that's beautiful to share  
when everyone wanders around in despair

Teach me how to love again  
Oh oh oh

Take me by the hand  
teach me how to love again  
The world can be our wonderland  
We don't settle for less than much  
Our dreams come first - we make them last
