

Sleeping Pills

Suede

Angel don't take those sleeping pills you don't need them
Though it's just time they kill
Angel give me your sleeping pills you don't need them
Give me the time they kill
You're a water sign I'm an air sign
Gone gone to Valium can you get me some?
You're a water sign and I'm an air sign
Too Siamese to catch the leaves from those trees
Angel don't take those sleeping pills you don't need them
Though it's just time they kill, You're a water sign, I'm an air sign
Pumped up with Valium, could you get me some?
You're a water sign, I'm an air sign
With sweet F.A. to do today, with sweet F.A. to do today
Angel, don't take those sleeping pills.
