

Jump into My Mouth and Breathe the Stardust

Black Moth Super Rainbow

Let it out...
Let it out...
Let it out...
Let it out...
Let it out...
Let it out...
Let it out...
Let it out...
Bring us home,
Start at somewhere,
We had known,
And find our way home And find our way home
And find our way home
And find our way home
And find our way home
Let it out...
And find our way home
Let it out...
And find our way home
Let it out...
And find our way home
Let it out...
And find our way home
Let it out...
And find our way home
Let it out...
And find our way home
Let it out...
And find our way home
Let it out...
And find our way home
Let it out...
Bring us home,
Start at somewhere,
We had known,
And find our way home
