

# Long Time Loving You

## Balaam and the Angel

I can't stop you now  
You just strut hang around  
Drive me insane with what you wear  
Nothing much I do declare  
I've been all up I've been all down  
I hang my head all over town  
I been about all night  
Just got it way deep down inside  
Hey young girl take a look at me now  
I'm a long time loving you  
Smiles that mean delight  
All the thoughts you know are right  
I've been around & I've been down  
Passed away and helped around  
You know it turns me on  
I like the way you do things wrong  
High school in doubt oh no  
I know I'm crazy but I love you so  
Hey young girl take a look at me now  
I'm a long time loving you  
Hey take it easy  
Come get easy do you like what you see
