

Jealous Lover

Kilians

Lost and lonely
Clouds hide the sun
Out on the highway
It's all hit and run
Cold empty nights
Demons in my head
It's something I did
Or baby something you said
And it's hard to discover
That you're just another
Jealous lover
And it's so tough to take
But you're making no mistake
Jealous lover
Oh yeah
Don't want no other
Shades of red
Eyes of green
Sees black and white
And there's no in between
Ask me no questions
I'll tell you no lies
Still you keep thinking
That it's all alibis
And it's hard to discover
You're like any other
Jealous lover
And you're saying I'm a fake
Don't you making a mistake
Oh, no no
Every day it's the same
The faces and the names
How long can I go on
Playing this game
So I live for the nights
Soft candle lights
Today they love you
Then tomorrow they might
And it's hard to face

Someone else takes your place
Jealous lover
And they're saying that's the brakes
But I got what it takes
Jealous lover, ohh oh
Jealous lover
Jealous lover
Don't need no, no no
Don't need no other
Jealous lover, yeah
Jealous lover
Jealous lover
