Double Exposure

Kelley Stoltz

Well if someone told ya
That a ghost did the crime
And they tried to show ya
But you didn't have the timeIt's a double exposure
It's a state of mind
And everyone who knows ya
Says you're getting unkindDouble (double)
Exposure (exposure)
You see yourself a lot
Double (double)
Exposure (exposure)
(You're in the shot)x3And you've been talking to the doctor
And you fell in with the nurse
And whatever's eating at ya
Well it's about to get worseAnd it's banging on the window
And it's crawling up the drain
It's a double exposure
When the flashbulbs rainDouble (double)
Exposure (exposure)
You see yourself a lot
Double (double)
Exposure (exposure)
(You're in the shot)x3And you're little pocket mirror
Is covered in fingerprints
And as you go nearer
You don't wanna see thisIt's a double exposure
It's a state of mind
And everyone who knows ya
Says you're getting unkindIt's a double (double)
Exposure (exposure)
You see yourself a lot
It's a double (double)
Exposure (exposure)
(You're in the shot)x2
