

# Double Exposure

[Kelley Stoltz](#)

Well if someone told ya  
That a ghost did the crime  
And they tried to show ya  
But you didn't have the timeIt's a double exposure  
It's a state of mind  
And everyone who knows ya  
Says you're getting unkindDouble (double)  
Exposure (exposure)  
You see yourself a lot  
Double (double)  
Exposure (exposure)  
(You're in the shot)x3And you've been talking to the doctor  
And you fell in with the nurse  
And whatever's eating at ya  
Well it's about to get worseAnd it's banging on the window  
And it's crawling up the drain  
It's a double exposure  
When the flashbulbs rainDouble (double)  
Exposure (exposure)  
You see yourself a lot  
Double (double)  
Exposure (exposure)  
(You're in the shot)x3And you're little pocket mirror  
Is covered in fingerprints  
And as you go nearer  
You don't wanna see thisIt's a double exposure  
It's a state of mind  
And everyone who knows ya  
Says you're getting unkindIt's a double (double)  
Exposure (exposure)  
You see yourself a lot  
It's a double (double)  
Exposure (exposure)  
(You're in the shot)x2
