Mandala

Marshall Styler

Dance with me for I'll be leaving soon.
Afterbirth on the keypads overwhelm
"Did he who make the lamb make thee?"
Help me find its origin.In a cartoon house, in a cartoon car.
There are cities buried underneath our cities
"Let the people be free...let the people be free"
It's all around us.Dance with me for I'll be leaving soon
Afterbirth on the keypads overwhelm
"Did he who make the lamb make thee?"
Help me find its origin.In a cartoon house, in a cartoon car.
There are cities buried underneath our cities
"Let the people be free...let the people be free"
It's all around us, it's all around...
"Let the people be free...let the people see"We so obviously had another hand and oh so separated
How do I act like I've made this when I... when I...
When I so obviously had another hand.Dance with me for I'll be leaving soon
Afterbirth on the keypads overwhelm
"Did he who make the lamb make thee?"
What happens when we reach for each other?
