That's The Way It Goes

Simon Webbe

(Na na na na na na...)Some day's i don't know how i got here
It's been a journey through the dark
I've lived the live that and no answers
The truth was always in my heart
I've spent a coin to make decisions
And still I always got it wrong
Try to AVOID HELD ON collision
The Jeans WAS DEEP AND NOW IT'S GONESo I say uh uh uh
That's the way it goes
I've lived to find another day
And I...uh uh uh uh uh
That's the way it goes
Life Is a game we have to play
Play on...It's like a book that has no ending
It's like a story never told
It's like a night when your own fire
Why Goes the morning feel so cold?
Feels like I'm trapped inside a circle
AND though I plan my great escape
IT'S like come back AT where I've started
The only thing I have is space[Chorus]Play on...Oh, you know we have to play
Na na na na na naIt feels like I'm intraped inside a circle although I plan my
Great escape
Looks like I back at where I've started
The only thing I have is space
That's the way it goes...
