

# How Good Is Your Game

**Billy Paul**

You are the one, you must decide  
To move ahead, or step aside  
Find the game that 's right for you  
Do or die, you either win or lose  
Now how good is your game, the game you play, yeah  
Now how good is your game, the game you play, everyday  
You brought it my way  
The key to life is in your hand  
To admit you will to the Master' s plan,  
Sacrifice to gain the price  
You're running out, you'd better use it wise  
How good is the game you play, I wanna know, how good is your game  
How good is the game you play, don 't let it go, how good is your game  
I wanna know, ' cos he told me so,  
I wanna know, ' cos he told me so  
Man is known by the beauty there,  
Seed the sound while you' re moving fast  
Keep it tight with the pulse on view  
'cause what you give is coming back to you  
Now how good is your game, the game you play, yeah, yeah, yeah  
Now how good is your game, the game you play, everyday  
How good is the game you play, I wanna know, how good is your game  
How good is the game you play, don 't let it go, how good is your game  
How good is your game, the game you play, yeah yeah yeah yeah  
The game you play everyday  
How good is your game, the game you play everyday  
How good, how good, how good, how good is your game  
How good, how good is your game, the game you play everyday
