

New Slow

Phlake

Could you fall slow
Would you stay low
Would you crawl back
or would that look sad

I wish I was wrong
when kisses go on
in summertime force you to love in the room

Ooh I

I kinda set the tone for slow motion
Breaking in and out you might notice
how I hide

and now I

Always push away I don't know why
I left you all alone and can't know
I know I'm far

Now I just want that new slow
You know I'm trying to find that new slow (ohh)
That new slow you know
I'm looking for that new slow (ohh)

Our vision was strong
We left it alone
Now let's bring it back
to the days of Mama Simone

(with you forever)

I wanna stay here yeah
I really wanna be there
instead of moving fast
I wanna I wanna be where

we set the tone for new slowing
wanna show it off so you notice

how I just rushing to this

New slow you know
I'm tryna find that new slow (ohh)
Yeah, that new slow you know
I'm looking for that new slow (ohh)

Now everytime we take off (slow)
It kinda seem to pay off (slow)
No more rushing and hiding
I wanna move slow
real slow new slow

No more fussing and fighting
I wanna move slow
real slow new slow

Cuz I just want that new slow
You know
I'm tryna find the new slow (yeah)
The new slow you know
I'm tryna find the new slow (ohh)
