

Street Corner Talking

Savoy Brown

Came to the city, left my happy home

Came to the city, left my happy home

But I didn't do right, learned my lessons wrong Street corner talking, wonder what I'm gonna do?

Street corner talking, wonder what I'm gonna do?

If you can't get a job, council will take care of you It's the same, what a shame, no matter where you go

It's the same, what a shame, no matter where you go

People wonder what to do, too much time for me and you Street corner talking, wonder what I'm gonna do?

Street corner talking, wonder what I'm gonna do?

If you can't get a job, council will take care of you
